Summary — Focused Computer Science Major experienced in Python, Java, SQL, NoSQL, and Docker, with an interest in Software Architecture, Data Science, AI Engineering, and Cloud Computing. Immersed in solving problems, and developing efficient, scalable solutions. Continuously learning to gain and master new skills and technologies.

Skills

Languages C, C++, Java, Python, JavaScript/Typescript

OS Debian, Ubuntu, CentOS, Arch, OSX, Windows

Projects

Media Streaming Service

June 2024 – Present

- Applications Used: Docker, NGINX, Varnish, Kong, FFmpeg
- Languages Used: NodeJS (JavaScript/Typescript), Go, BASH
- Protocols and API styles Used: DASH, HLS, HTTP/3 (QUIC), RESTful, gRPC

Facial Recognition

Jan 2024 – May 2024

- Programmed the Vector Database and Camera Facial Recognition Logic
- Used a pre-trained Convolutional Neural Network
- Used libraries such as: Numpy, PyTorch, Pillow, ChromaDB, etc

Server Hosting

Jan 2017 – Present

- Used Linux distributions to host different types of servers
- Servers hosted include web servers, game servers, proxy-servers

Experience

The University of North Carolina at Charlotte

August 2022 – Present

Teaching Assistant, Lead Teaching Assistant

Data Structures and Algorithms (Teaching Assistant):

- Assisted the Professor with explaining various Data Structures and well-known Algorithms to students
- Used advanced Java classes to implement Data Structures and Algorithms
- Coordinated with the other Teaching Assistants (Office Hours, Grading)
- Recorded problem solution videos

Intro to Computer Science II (Teaching Assistant, Lead Teaching Assistant):

- Managed Instructional Assistants, Students, and Lab workflow
- Created/Managed the Instructional Assistant's communication systems (Piazza, Discord)
- Assisted the Professor with explaining the advanced concepts of object-oriented programming to students (Inheritance, Polymorphism, and Encapsulation)
- Graded workshop labs, projects, and activities
- Made solution videos to weekly problem sets for labs

Intro to Computer Science I (Teaching Assistant, Lead Teaching Assistant):

- Managed Instructional Assistants, Students, and Lab workflow
- Created/Managed the Instructional Assistant's communication systems (Piazza, Discord)
- Assisted the Professor with explaining the fundamentals of object-oriented programming to students including basic Java syntax
- Assisted students with basic problem-solving skills using Flowcharts, Pseudocode, and basic Python syntax
- Graded workshop labs, projects, and activities
- Made solution videos to weekly problem sets for labs

Education

University of North Carolina at Charlotte

May 2025

Bachelor of Science in Computer Science

Concentration: AI, Robotics, and Gaming

Minor: Mathematics

Certifications

- Microsoft Office Specialist - Microsoft Word and PowerPoint (2013)
- Microsoft Excel, Microsoft Excel Expert - (Office 2016)
- AutoCAD - Autodesk Certified User (2018)
